Subject: FW: Dewey Burdock Class V Draft permit docs

Importance: High

Minter, Douglas has shared OneDrive for Business files with you. To view them, click the links below.

Class V Draft Area Permit - V2.0 markup displayed.LC.docx

Class V Draft Area Permit Fact Sheet - V2.0 markup displayed.LC.docx

Class V Draft Area Permit Powertech Comments - Matrix (002).ORCcmtd.docx

Hi Britta: I talked with Tiffany on Monday to request timely enforcement review of these draft Class V permit documents. She said that you would likely be doing the review (please let me know if my understanding is incorrect).

Sarah has asked that these be reviewed by next Tuesday, COB (August 6th) to align with Darcy's schedule for review and to ensure we can still meet the RA's deadline for permit issuance by August 26th. Since Sarah and I will also be reviewing these documents concurrently, I have attached SharePoint versions we can all work from. The focus of our review should be the draft permit and SOB, but Chuck (who is on vacation) included Powertech's comments as a reference document.

As you work through these documents, please ensure that track changes is "on" to capture your revisions, etc.

Please let me know if you have any questions, etc. and thanks for your support!

Douglas

Thanks Chuck: can you confirm that this is the version you would like Sarah, Britta (for ECAD), and myself to review and comment on by the end of next week?

Subject: Dewey Burdock Class V Draft permit docs

Hi Douglas:

Attached are marked-up versions of the original Class V docs for the D/B project. I've addressed Lucita's questions but there are a few fixes that I've made based on today's conversations with Lucita that she hasn't seen yet. I cc'd her on this message so that she has the same updated language as you.

I also attached Powertech's Comments which I marked-up to show the changes I made (or didn't make).

I didn't include anyone else on this message, so feel free to pass any of this on to Sarah as you see fit.

If you need access to these docs for some other reason, I put copies on the I-drive, Managed Share, under my name.
